The Goals Database

Ensure GHG emissions at least 50% below our 2002 baseline by 2025, while growing our business.

2025: Goal Help our customers reduce their GHGs by 250 million tons of CO2 equivalent emissions through use of 3M products.

Our climate protection goal is to reduce our greenhouse gas emissions – measured in carbon equivalents per square metre of sales floor – by at least 30% compared to 2012 by 2020.
Reduce our Scope 1 emissions by 20 percent by 2020, using a 2008 Scope 1 baseline of 1,172,476 mtons CO2-e.

2025 Goal: AT&T will enable carbon savings 10x the footprint of our operations by enhancing the efficiency of our network and delivering sustainable customer solutions.

**2025 ATT Goals Overview**

**Albertsons Companies**

Reduce absolute emissions by 25% by 2020 versus a 2010 baseline.

**Safeway Shares the "Heart of Safeway" in its Annual Sustainability Report**

**Alphabet**

In 2007, Google committed to being carbon neutral, and we've met this goal every year since then. Our end goal is a zero-carbon world where everyone everywhere has access to clean, carbon-free energy 24 hours a day, 365 days a year.

Reduce single-occupancy vehicle commuting at our Bay Area headquarters to 45%.

Provide electric vehicle charging stations for 10% of parking spaces at our Bay Area headquarters.

**Google's 2017 Environmental Report**

**Amazon.com, Inc.**

Amazon is committed to minimizing our carbon emissions by optimizing our transportation network, improving product packaging to drive efficiency in the distribution of products, implementing energy efficiency measures in our operations, and using renewable energy to run our business. We have also joined numerous industry partnerships to express support for action on climate change and to accelerate the transition to a low-carbon economy.
We employ water, energy, Greenhouse Gas (GHG) Protocol standards, and waste reduction efforts in our kitchens and offices.

What is Amy's Sustainability Policy?

[By 2025] a 25% reduction in CO2 emissions across our value chain (science-based).

Anheuser-Busch InBev - Sustainability Goals

We're always looking for ways to make the biggest difference in five major areas: facilities, manufacturing, product use, transportation, and recycling.

Apple Climate Change

Barilla Group makes continuous efforts to reduce the environmental footprint of its production processes by managing and monitoring the energy resources used at its plants, the greenhouse gases emitted, and their water consumption and waste production.

Barilla sets up projects designed to encourage the reduction of waste production and the recovery of waste material instead of its disposal. Careful management of the production process and methods of processing of raw materials have enabled Barilla to reduce its waste production compared with the previous year, despite an increase in production volumes.
By 2025 we will reduce our energy-related CO2 emissions per product manufactured by 70%. (Base year 2014)

Our Commitments for 2020/2025

Best Buy Co., Inc.

2020 goal: Reduce carbon emissions 60% (over 2009 baseline); carbon neutral by 2050.

Best Buy 2018 Corporate Responsibility & Sustainability Report

CVS Health

As part of our goal, CVS Health is committed to reducing absolute scope 1 and 2 GHG emissions 36 percent by 2030 from a 2010 base-year. CVS Health also commits that 70 percent of its suppliers by emissions will set science-based emissions reduction targets on their scope 1 and 2 emissions by 2023.

CVS Commitment to Reducing Our Greenhouse Gas Emissions

Church & Dwight Co., Inc.

In 2017, we established new environmental goals with respect to greenhouse gas (GHG) emissions, water reductions and solid waste recycling. Our GHG goal is to be carbon neutral by the end of 2025 and achieved through:

- Reduce – our overall consumption of energy from our operations and transportation.
- Recycle – continue the successful recycling efforts at all operations.
- Renew – support the generation of clean green energy.

Church & Dwight Co., Inc. 2017 Sustainability Report
Cisco Systems Inc.

Reduce Cisco’s Scope 1 and 2 GHG emissions on an absolute basis by 60% by 2022 (FY07 baseline).

By 2020, we plan to eliminate one million tons of greenhouse gases from our supply chain.

Clif Bar & Co.

Our climate and energy goals are to source 100% green power for Clif Bar owned and operated facilities and offset our annual carbon footprint by supporting projects that generate social and environmental benefits. In addition, we are working to reduce carbon intensity to 10% below a 2014 baseline by 2020 as well as working with supply chain partners to transition to at least 50% green power for electricity used for Clif Bar products and services by 2020.

Clorox Company, The

In 2012, we set a goal to decrease our GHG emissions 20 percent (per case of product sold) by 2020 versus 2011 base year.

Coca-Cola Company, The

2020 Goal: Reduce the carbon footprint of “the drink in your hand” by 25% (2010 baseline).
We will promote use of renewable energy and reduce absolute greenhouse gas emissions from manufacturing by 25% compared to 2002 [by 2020].

Colgate 2017 Corporate Social Responsibility Sustainability Report

Comcast Corporation

We're working toward zero emissions, zero waste, and 100% renewable energy.
Throughout 2016, we continued to sharpen our focus in three core areas: lowering the amount of energy used by our products and facilities, reducing greenhouse gas emissions from our nationwide vehicle fleet, and minimizing the amount of waste we send to landfills.

Sustainable Excellence From the Ground Up

Costco Wholesale

We desire to do our part to lessen the impact and will continue to explore ways to lower our carbon footprint, source merchandise responsibly and preserve natural resources.

Costco Sustainability

Danone North America

50% reduction in emission intensity on Danone's full scope by 2030.
30% absolute reduction in Danone scope 1 and scope 2 emissions by 2030.

Danone 2017 Annual Report

Dell

2020 Goal: Reduce global absolute GHG emissions, Scopes 1 and 2 [MT CO2e] Market-Based, by 40% as compared to a FY11 baseline.
Dell 2020 Goal Alignment Exercise

By 2020, Dell's suppliers representing 95% of direct materials spend and key logistics suppliers will set specific greenhouse gas emissions targets and report on their emissions inventories.

Diageo

Reduce absolute greenhouse gas emissions from direct operations by 50%, and achieve a 30% reduction along the total supply chain [by 2020].

Diageo - Reducing Our Environmental Impact

Disney Consumer Products

By 2020, reduce net emissions from 50% from 2012 total levels.

Disney’s Environmental Stewardship Goals and Targets

Eco-Products

In 2018, decrease carbon dioxide emissions from air travel by reducing the total miles flown per $1,000 of sales by 5%. In 2018, decrease reimbursed vehicle mileage per $1,000 by 5%.

Eco-Products 2018 Sustainability Report

Estée Lauder Companies, The

Our sustainable packaging approaches include:

- Low-impact sourcing: Making sustainability one of the essential criteria in purchasing decisions, along with quality, price and innovation. This will ensure a “least-carbon intensive” approach throughout our supply chain.

- Bio-sourcing: Taking advantage of advances in bio-sourced materials, especially as replacements for oil/gas derived plastics.
- Oil/gas derived plastics.

- Recycling: Substituting some part of virgin content for recycled content.

- Material substitution: Using components made from less carbon-intensive materials.

- Recyclable packaging: Identifying opportunities to pursue recyclable primary packaging, as well as inserts.

- Elimination: We are identifying and striving to eliminate components within our packaging where possible.

Building on several years of working to reduce both emissions intensity and absolute emissions from our owned and operated facilities, we set a new long-term goal in fiscal 2016: net-zero emissions by 2020.

Estée 2016 Progress on Sustainability and Citizenship Report

Fabri-Kal Corporation

Our conscious manufacturing practices and strategically-located facilities help reduce our carbon footprint. When our Kalamazoo, Michigan, facility opened in 2010, it was honored with the U.S. Green Building Council's LEED® Silver certification.

Fabri-Kal Sustainability

Ford Motor Company

Reduce global facility CO2 emissions per vehicle produced by 30 percent between 2010 and 2025.

Engage with our supply chain to understand its carbon and water footprints.

Ford Goals and Progress

General Electric

We are measuring progress through our 2020 commitments to reduce our greenhouse gas (GHG) emissions and freshwater use by 20%, from the 2011 baseline.

GE Minimizing Impact
Reduce absolute GHG emissions across our full value chain by 28 percent by 2025 and 41-72 percent by 2050 (compared to 2010).

we are working to reduce the greenhouse gas emissions occurring within our packaging supply chain

General Mills - Packaging Statement
General Mills Global Responsibility 2018

General Motors

2020 Operational Commitment: Reduce carbon intensity by 20 percent (metric tons CO2e/vehicle)

General Motors 2017 Sustainability Report

Hewlett Packard Enterprise (HPE)

In 2016, we...set a science-based target to reduce operational greenhouse gas (GHG) emissions by 25% compared to 2015.

[By 2025] Reduce supply chain manufacturing-related GHG emissions by 15% compared to 2015, requiring 80% of our manufacturing suppliers to set science-based emissions reduction targets

Hewlett Packard Enterprises Living Progress Report 2017

Hewlett-Packard Company (HP)

Reduce Scope 1 and Scope 2 GHG emissions from global operations by 25% by 2025, compared to 2015.

Reduce first-tier production supplier and product transportation-related GHG emissions intensity 10% by 2025, compared to 2015.

**HP 2017 Sustainable Impact Report**

Pledged to help reduce consumer greenhouse gas emissions by 20 million metric tons by 2020.

**Home Depot 2017 Responsibility Report**

Honeywell exceeded its first two public goals and has now established a third one; by 2019 we will reduce our global greenhouse gas emissions by an additional 10 percent per dollar of revenue from our 2013 levels.

**Honeywell International Sustainability page**

Reduce emissions by 35 percent by 2020.

**IBM Environment**

By 2030 our ambition is to become climate positive and regenerate resources while growing the IKEA® business.

**IKEA Sustainability Strategy**
**Intel 2020 Environmental Goals**

Reduce direct greenhouse gas emissions by 10% on a per chip basis by 2020 from 2010 levels.

**J. M. Smucker Goals**

Reduce GHG emissions intensity by 10 percent [by 2020].

**J&M Smucker Goals**

**Johnson & Johnson**

Reduce absolute carbon emissions 20 percent by 2020, 80 percent by 2050.

**J&J Health for Humanity 2020 Goals**

**Kao USA, Inc.**

2020 target: 35% reduction in energy consumption, per unit of sales (2005 baseline) We set the 2020 reduction targets for energy consumption and greenhouse gas emissions pertaining to all Kao Group sites in 2013 and have aimed to achieve at least a 1% reduction each year.

**KAO 2017 Sustainability Data Book**

**Kellogg Company, The**

By 2020, reduce GHG emissions in our plants by an additional 15% per metric tonne of food produced from a 2015 baseline

By 2050, reduce Scope 1 & 2 emissions in our operations by 65% (from our 2015 performance).

By 2050, partner with our direct suppliers to help reduce their Scope 3 emissions by 50 percent (including agriculture) from a 2015 baseline
Keurig Dr Pepper

2020 Target: Reduce greenhouse gas (GHG) emissions by 25%.

Keurig Green Mountain 2017 Sustainability Report

Kimberly-Clark Corporation

2022 goal: 20% reduction in absolute greenhouse gases versus 2005 baseline

Kimberly-Clark Energy and Climate

Kroger Co., The

Kroger committed to reduce refrigerant leaks by 9% in its stores by 2016, as part of the EPA’s GreenChill Program.

Kroger 2020 Sustainability Goals

LG Electronics

Reduce carbon emissions in the production level by 150,000 tons by 2020 compared to the base year 2008. (1 million tons in cumulative reductions)

LG 2018 Sustainability Report

Lowe's

Reduce U.S. store carbon emissions 20 percent per square foot by 2020 (metric tons CO2 e/ft²) from
Mars, Incorporated

Reduce the total GHG emissions across our value chain by 27 percent by 2025 and 67 percent by 2050 (from 2015 levels)

Mars - Climate Action

McDonald's

The Company will partner with Franchisees to reduce greenhouse gas emissions related to McDonald’s restaurants and offices by 36% by 2030 from a 2015 base year. Through collaboration and partnership with our suppliers and producers, the Company also commits to a 31% reduction in emissions intensity (per metric ton of food and packaging) across our supply chain by 2030 from 2015 levels.

McDonald's Climate Action

Microsoft

In 2017, Microsoft pledged to reduce its operational carbon emissions 75 percent by 2030 and is on target to achieve this goal.

Microsoft - Operating to drive global change

Mondelez International

Reduce absolute CO2 emissions from manufacturing by 15% [by 2020 vs. 2013 baseline].
Mondelēz Press Release

By 2020: Reduce GHG emissions (Scope 1 and 2) per tonne of product in every product category to achieve an overall reduction of 35% in our manufacturing operations versus 2010.

By 2020: Reduce GHG emissions by 10% in our distribution operations versus 2014.

By 2020: Reduce GHG emissions by 10% in the 100 major warehouses we use versus 2014.

Nestle Climate Change

Nike Inc.

Decrease energy and CO2e emissions 25% per unit in key operations (inbound and outbound logistics, distribution centers, headquarter locations, finished goods manufacturing and NIKE-owned retail) by FY20.

Decrease energy and CO2e emissions 35% per kg in textile dyeing and finishing processes by FY20.

Decrease average product carbon footprint 10% by FY20.

We set an ambitious goal: double our business while halving our environmental impact – an environmental moonshot.... We charted an actionable roadmap to cut unneeded uses of carbon, water and controversial chemistry. We set milestones for ourselves, agreeing to check our progress in 2025.

Nike, Inc. FY16/17 Sustainable Business Report
Nike, Inc. - Our Environmental Moonshot

PVH Corp.

Our Commitment: Measure and reduce PVH’s greenhouse gas ("GHG") emissions by reducing energy consumption, increasing energy efficiency and utilizing clean energy both in our owned and operated facilities and throughout our value chain.

In 2017, we set our first global target to reduce GHG emissions at our own facilities by 35 percent by 2030 against a 2015 baseline.
Panera Bread

Our goal is to reduce GHG emissions by 15 percent per square foot by 2022 compared to our 2016 baseline.

Panera 2015-2016 Responsibility Report

PepsiCo

Reduce absolute greenhouse gas (GHG) emissions by at least 20% by 2030 (Scope 1 & 2 performance)

Reduce absolute greenhouse gas (GHG) emissions by at least 20% by 2030 (Scope 3 performance)

2025 GOAL: Strive to design 100% of our packaging to be recyclable, compostable or biodegradable, increase recycled materials in our plastic packaging, reduce packaging’s carbon impact, and in partnership with the PepsiCo Foundation, work to increase recycling rates.

Companies Take Major Step Towards Circular Economy
PepsiCo - Our Goals

Procter & Gamble

We will cut our Scope 1 and 2 GHG emissions in half by 2030 vs. our current 2010 baseline.

[By 2030] Advance at least 10 significant supply chain partnerships to drive circularity on climate, water or waste.

P&G Ambition 2030 Environmental Sustainability Goals
Our 2020 goal for manufacturing: 40% reduction in carbon emissions since 2012 per unit of production

RB Greenhouse gas

SC Johnson has set an aggressive goal of further reducing GHG emissions 15 percent by 2020 from the base set in 2015.

SC Johnson Press Release

Decreasing greenhouse gas emissions by 20 percent between FY 2010 and the end of FY 2018, normalized annually by net sales

Scotts Miracle-Gro Press Release

Seventh Generation has set an aggressive goal of further reducing GHG emissions 15 percent by 2020 from the base set in 2015.

SC Johnson Press Release

By 2025] Reduce GHG Emissions: Scopes 1 through 3 (indirect and direct emissions) inclusive of consumer use – by 50 percent from a 2012 base year.

Additionally, Seventh Generation is looking even further into the future by committing to aggressive science-based targets, pledging to reduce scope 1 (direct) and 2 (indirect) greenhouse gas (GHG) emissions 100 percent by 2030 from a 2012 base year. The company also commits to reduce absolute GHG emissions from the use of their products 90 percent and reduce all other scope 3 (indirect) emissions 80 percent by 2030 from a 2012 base year.

Seventh Generation Press Release
Reduce total carbon emissions by 50% from 2010 to 2020.

Staples Performance Highlights

Subway Restaurants

Reduce our packaging’s carbon impact via minimalist design and material choice based on sound science.

Subway - Our Plan

Sysco

We commit to reducing the carbon footprint of our fleet and operations.

Sysco Corporate Social Responsibility

TJX

In 2014, we established our second GHG reduction target. Our goal is to reduce our global GHG emissions per dollar of revenue by 30% by 2020, against a 2010 baseline.

TJX Environment page

Target

Target will reduce its absolute Scope 1, 2 and 3 greenhouse gas emissions by 30 percent below 2017 levels by 2030.

We’re also committing that 80 percent of our suppliers will set science-based reduction targets on their Scope 1 and 2 emissions by 2023.
Tyson Foods, Inc.

Achieve a 30% reduction in greenhouse gases by 2030

Tyson Sustainability

U.S. Postal Service

Reduce Scope 1 and 2 emissions 25% by FY2025 (million MTCO2e) relative to a 2008 baseline
Reduce Scope 3 emissions 30% by FY2025 (million MTCO2e) relative to a 2008 baseline
Reduce fleet-wide per-mile GHG emissions 30% by 2025 relative to a 2014 baseline (g CO2e/mile)

USPS 2017 ANNUAL SUSTAINABILITY REPORT
USPS - Vehicle Fuel Consumption

UPS

We are measuring the progress of our global ground operations in absolute terms, seeking a 12 percent reduction in emissions by 2025.

UPS 2016 Corporate Sustainability Report

Unilever

We will become carbon positive in our manufacturing by 2030:

- We will source 100% of our energy across our operations** from renewable sources by 2030.
- We will source all our electricity purchased from the grid from renewable sources by 2020.
- We will eliminate coal from our energy mix by 2020.
- In order to achieve our target of carbon positive by 2030, we intend to directly support the generation of more renewable energy than we consume and make the surplus available to the markets and communities in which we operate.

- All newly built factories will aim to have less than half the impact of those in our 2008 baseline. Halve the greenhouse gas impact of our products across the lifecycle by 2030.

By 2020 CO2 emissions from energy from our factories will be at or below 2008 levels despite significantly higher volumes.

By 2020, CO2 emissions from our global logistics network will be at or below 2010 levels despite significantly higher volumes. This will represent a 40% improvement in CO2 efficiency.

Unilever Greenhouse Gases

Verizon Wireless

By 2025, we will reduce our carbon intensity (a measure of the overall carbon we emit divided by the terabytes of data carried by our networks) by 50 percent over the 2016 baseline.

Verizon 2017 Corporate Responsibility Report

Walgreens Boots Alliance

Reduce our energy consumption and emissions on a comparable basis* as defined by the Greenhouse Gas Protocol. *Excludes the impact of acquisitions, disposals, and any significant changes in existing operations.

In the USA, through its partnership in the Department of Energy’s Better Buildings Challenge, Walgreens is committed to reducing energy use by 20 percent by 2020 across 100 million square feet of real estate, compared with consumption data from calendar 2010 that was reviewed by an external consultant (ICF) supporting the Better Buildings Challenge.
