The Goals Database

Achieve ‘zero landfill’ status at more than 30% of manufacturing sites by 2025. Reduce manufacturing waste by an additional 10% indexed to sales.

2018 Sustainability Report

We strive to minimise the volume of our operational waste which is incinerated or sent to landfill.

ALDI SOUTH Group Corporate Responsibility Report 2017

Albertsons Companies
Committed to zero waste at our manufacturing facilities by 2022.

Albertsons Companies Sustainability Update 2016

Achieve Zero Waste to Landfill for our global data center operations. We increased our global landfill diversion rate for data center operations by 5%—from 86% in 2016 to 91% in 2017.

Reduce total waste per Googler at our Bay Area headquarters by 10% in 2017, compared with a three-year average baseline (2014-2016). We achieved a 4% reduction in landfill waste per Googler at our Bay Area headquarters.

Set regional waste-reduction targets for our offices in 2017. We revised our strategy to focus on the highest-impact waste opportunities within our office portfolio. In 2017, we focused on collecting representative and robust waste audit data from our global offices. This effort is the foundation for understanding waste-performance opportunities based on office purchases, waste generation, and supportive local infrastructure.

Google's 2018 Environmental Report

We employ water, energy, Greenhouse Gas (GHG) Protocol standards, and waste reduction efforts in our kitchens and offices.

Amy's Kitchen, Inc.

Beyond our packaging, we seek to minimize the amount of waste we send to landfill from our breweries through recycling initiatives, including using waste as fuel in our operations.

Anheuser-Busch InBev

Anheuser-Busch InBev 2016 Better World Report
We're committed to making sure all the waste created by our own facilities and in our supply chain is reused, recycled, composted, or when necessary, converted into energy.

**Apple Environmental Responsibility Report 2018**

Barilla America

Barilla Group makes continuous efforts to reduce the environmental footprint of its production processes by managing and monitoring the energy resources used at its plants, the greenhouse gases emitted, and their water consumption and waste production.

Barilla sets up projects designed to encourage the reduction of waste production and the recovery of waste material instead of its disposal. Careful management of the production process and methods of processing of raw materials have enabled Barilla to reduce its waste production compared with the previous year, despite an increase in production volumes.

**Barilla's Good for the Planet 2018 Sustainability Report**

Beiersdorf AG

By the end of 2018 we intend to completely eliminate the disposal of waste in landfill.

**Beiersdorf Sustainability Review 2017**

Best Buy Co., Inc.

As part of our commitment to lessening our environmental impacts, we are seeking to achieve an 85 percent diversion rate for all U.S. operations by the end of FY20.

**Best Buy 2018 Corporate Responsibility & Sustainability Report**

CVS Health
Our work to operate sustainably prioritizes reduction of our carbon intensity and energy use, improved efficiency of our transportation fleet, waste reduction and water conservation.

CVS Health 2017 Corporate Social Responsibility Report

Chobani continues to identify ways to reduce the amount of manufacturing waste we produce and send to landfill.

The Chobani Way - Committed to the planet and its people

Church & Dwight Co., Inc.

Achieve global operations solid waste recycling rate of 75% by 2020.

Church & Dwight Co., Inc. 2017 Sustainability Report

Cisco Systems Inc.

Cisco’s Waste Reduction and Recycling Program uses the principles of reduce, reuse, and recycle for our operations.

Cisco 2017 Corporate Social Responsibility Report

Clif Bar & Co.

By the end of 2020, we hope to achieve 90% Diversion at our Headquarters and Supply Chain facilities.

Clif Bar Zero Waste
In 2012, we set a goal to achieve a 20 percent reduction in solid waste to landfill by 2020 (per case of product sold) versus 2011 base year at our facilities worldwide.

Also by 2020, we aim to have 10 zero-waste-to-landfill sites (where 90 percent of solid waste is either recycled or composted with the rest of waste sent to a waste-to-energy facility).

Sustainability in Our Facilities - Waste

Colgate-Palmolive Company

We will halve our manufacturing waste sent to landfill per ton of product compared to 2010, working toward our goal of Zero Waste [by 2020].

Colgate 2017 Corporate Social Responsibility Sustainability Report

Comcast Corporation

We're working toward zero emissions, zero waste, and 100% renewable energy.

Throughout 2016, we continued to sharpen our focus in three core areas: lowering the amount of energy used by our products and facilities, reducing greenhouse gas emissions from our nationwide vehicle fleet, and minimizing the amount of waste we send to landfills.

Sustainable Excellence From the Ground Up

Costco Wholesale

Our goal is to divert our waste material from landfills.

Costco Sustainability

Danone North America
In 2016, we set a goal of zero plastics to landfill for our industrial waste by 2020 in countries with developed collection systems, and by 2025 globally.

Danone 2016 Packaging Policy
Danone Packaging Policy

Dell

2020 Goal: Ensure 90% of waste generated in Dell-operated buildings is diverted from landfills.

Dell 2020 Legacy of Good Plan

Diageo

Achieve zero waste to landfill [by 2020].

Diageo - Reducing Our Environmental Impact

Disney Consumer Products

By 2020, achieve 60% waste diverted from landfills and incineration.

Disney's Environmental Stewardship Goals and Targets

Eco-Products

In 2018, complete waste characterization study with Eco-Cycle.

In 2018, increase HQ waste diversion to 90%.

In 2018, help at least nine foodservice operators implement a front-of-house Zero Waste program.

Eco-Products 2018 Sustainability Report
Our current goal of zero waste to landfill by 2020 applies to all of our global supply chain and innovation sites, including warehouse operations and more than 30 distribution locations across Europe, Middle East and Africa (EMEA), Asia-Pacific (APAC) and Latin America (LATAM).

FedEx

We emphasize efficiency in energy use, facility design and construction, paper and other materials used and waste management.

Ford Motor Company

Having completed our five-year global waste reduction plan, we are in the process of developing a subsequent plan.

Frontier Co-op

We also recognize the need to reduce growth in overall tonnage of waste, even as our production continues to increase.

General Mills, Inc.
General Motors

2020 Operational Commitment: Reduce waste intensity by 40 percent (kg/vehicle).

2020 Operational Commitment: Reach 150 landfill-free sites.

General Motors 2017 Sustainability Report

Hewlett Packard Enterprise (HPE)

Throughout our operations and supply chain we look for opportunities to minimize waste generation, as well as recycle and reuse where possible.

As part of our Supply Chain Responsibility (SCR) program, we work with suppliers on responsible waste management. We work with our suppliers to accurately track and report performance toward their waste reduction goals and to improve the quality of reporting and engagement.

Hewlett Packard Enterprises Living Progress Report 2017

Home Depot

The Home Depot is committed to properly managing waste and hazardous waste. We partner with vendors to constantly improve how we reduce, reuse and recycle waste.

Home Depot 2018 Responsibility Report

Honeywell International

Here are the criteria we use to evaluate new products:
• Reducing waste production
• Opportunities to reuse and recycle
• Opportunities to use recycled or renewable materials
• Reducing and eliminating classified toxic or hazardous materials
• Packaging more efficiently

Honeywell International Sustainability page

IBM

IBM recovered and sent 87.8 percent (by weight) of its nonhazardous waste to be recycled—surpassing our goal of 75 percent.

IBM Environment

IKEA

By August 2020, reduce waste from our store operations by 10%. By August 2020, 90% of the waste from our own operation will be recycled or energy recovered, of which 80% of the waste from stores and distribution centres and 90% from IKEA Industry Group will be material recycled.

IKEA Group Sustainability Strategy for 2020

Intel Corporation

Achieve zero hazardous waste to landfill by 2020
Achieve 90% non-hazardous waste recycle rate by 2020.

Intel 2016 Corporate Sustainability Report
Divert 95 percent of waste from landfills to alternative uses [by 2020]

J.M. Smucker Goals

We have been systematically reducing the amount of raw material we use and finding alternatives to landfill disposal for our waste streams, with goals in place since 2005 to reduce the amount of waste we dispose. These efforts continue, and go one step further as we work to increase waste diversion rates from our manufacturing processes.

J&J Waste Management

Johnson & Johnson

We have been systematically reducing the amount of raw material we use and finding alternatives to landfill disposal for our waste streams, with goals in place since 2005 to reduce the amount of waste we dispose. These efforts continue, and go one step further as we work to increase waste diversion rates from our manufacturing processes.

Kao USA, Inc.

2020 target reduction rate for waste production per unit of sales, relative to FY2005, all Kao Group plants and offices: 33%

KAO 2017 Sustainability Data Book

Kellogg Company, The

By 2020, reduce total waste by an additional 15% (per metric ton of food produced, from our 2015 performance).

Kelloggs's 2017/2018 Corporate Responsibility Report

Keurig Dr Pepper

2020 Target: Achieve zero waste to landfill.
Keurig Green Mountain 2017 Sustainability Report

2022 Goal: Extend our zero waste mindset across the value chain and deliver innovation to help keep product and packaging material out of landfills.

Seek to increase our net recycling value in our operations by 10% every year while avoiding landfilling of manufacturing waste.

Identify and deploy solutions that avoid and/or divert 150,000 MT of finished product and packaging from being landfilled after use.

Kimberly-Clark Waste and Recycling
Kimberly-Clark 2016 Sustainability Report

Kroger Co., The

Kroger aims to ultimately meet and exceed EPA's Zero Waste threshold of 90% diversion from landfill in our facilities by 2020.

We are committed to eliminating food waste across our company so that no food is going to landfill by 2025.

Kroger 2020 Sustainability Goals
Kroger 2018 Sustainability Report

LG Electronics

Achieve 95% recycle rate of waste from production sites by 2030.

LG Energy and GHG Emissions

Lowe's

Reduce tons of waste to landfill per net sales by 40% from 2010 baseline.
Mars, Incorporated

Send zero waste to landfill from our direct operations.

Mars Waste Reduction

McDonald's

Our long-term objective is to eliminate food and packaging waste to landfill.

Eliminating Waste

Microsoft

Our environmental sustainability work focuses in three primary areas: carbon and energy, water and ecosystems (including agriculture, biodiversity, conservation), and waste minimization.

Microsoft - Environmental sustainability

Mondelez International

Reduce total waste in manufacturing by 20% [by 2020 vs. 2013 baseline].

Mondelez Press Release

Nestlé USA

By 2020: Achieve zero waste for disposal in our sites.
By 2020: Make date labels understandable to our consumers in order to reduce food waste at consumption stage.

Nestle Waste and Recovery

Nike Inc.

Eliminate footwear manufacturing waste to landfill or incineration [by 2020], while continuing to reduce overall waste.

Reduce waste index by 10 percent [by 2020], covering footwear manufacturing, distribution centers, and headquarter locations.

Increase landfill diversion in distribution centers and headquarter locations.

Nike, Inc. FY16/17 Sustainable Business Report

PVH Corp.

As we look to 2018 and beyond... We will take more of a value chain approach by addressing waste challenges more broadly, including textile waste and circularity* innovations.

PVH 2017 Corporate Responsibility Report

Panera Bread

As a restaurant chain, we recognize the responsibility we have to reduce waste from our operations—both packaging and food waste that occur in the preparation of our food and in its consumption.

Using this information, we plan to identify ways to reduce the waste we generate, increase recycling and, where economically viable and mandated by law, pursue composting as a means of diverting waste that goes to landfill.

Panera 2015-2016 Responsibility Report

PepsiCo
Strive to achieve zero waste to landfill across all of our direct operations by 2025. Work to reduce the food waste we generate in our direct operations by 50% by 2025.

PepsiCo 2016 Sustainability Report

One of P&G’s 2020 goals for Operations is that <0.5% of Manufacturing Waste is disposed (to either landfill or incineration without energy recovery) versus a 2010 baseline and our corporate long term vision is to have zero consumer or manufacturing waste go to landfills.

[By 2030] Advance at least 10 significant supply chain partnerships to drive circularity on climate, water or waste

P&G Zero Manufacturing Waste
P&G Ambition 2030 Environmental Sustainability Goals

Each year, our goal is to improve our recycling practices.

Publix Super Markets

Our 2020 goals: 100% of factories zero waste to landfill and 20% reduction in waste per unit of production

RB Waste

Over the past five years, we have made significant investments in energy efficiency and waste reduction initiatives
SC Johnson

Our first objective is to eliminate waste entirely. But, when we can’t, we aim to divert solid and liquid waste from landfills to other sources in environmentally responsible ways.

SC Johnson 2017 Sustainability Report

Scotts Miracle-Gro

Reducing the weight of waste sent to landfills by 50 percent by the end of FY 2018 normalized annually by net sales.

Scotts Miracle-Gro Press Release

Staples

Reduce the amount of waste we send to landfills by 25% from 2010 to 2020.

Staples Performance Highlights

Starbucks Coffee Company

We're developing a new global store verification program to drive innovation, sustainability and efficiencies throughout our store portfolio. The program will include building standards for new and remodeled stores, along with performance standards for all stores in energy and water efficiency, waste reduction and partner engagement. With our goal of 10,000 greener retail stores by 2025, we hope to truly leverage our scale for good and deliver on our ambition to become the world’s largest green retailer.

Starbucks - What is the Role and Responsibility of a For-Profit Public Company?
We are diligently working on ways to reduce our waste stream with a goal of having as close to zero landfill waste as possible.

Subway - Our Plan

Divert 90% of operations and food waste from landfill [by 2025].

Sysco 2016 Sustainability Report - Warehouse & Distribution page

We strive to reduce the amount of waste going to landfill.

TJX 2017 Corporate Responsibility Report

Divert 70 percent of our retail waste from landfills through reuse or recycle programs by 2020.

As a member of the Consumer Goods Forum, we have committed to reducing food waste within our own retail and manufacturing operations by 50 percent by 2025.

2018 Target Corporate Social Responsibility Report

We are currently establishing an enterprise-wide system to better understand our waste footprint and plan to set targets beyond year-over-year improvements on waste reduction in FY2019. These new targets will define zero waste for our company and a structure for quarterly reporting and
We are committed to seeking out opportunities to eliminate or minimize food waste in our direct operations and supply chain.

**Tyson Reducing Waste and Conserving Natural Resources**

**U.S. Postal Service**

Divert 50 percent of solid waste from landfills [annually]

**USPS 2017 Annual Sustainability Report**

**Unilever**

For manufacturing, by 2020, total waste sent for disposal will be at or below 2008 levels despite significantly higher volumes.

**Unilever Waste and Packaging**

**Walgreens Boots Alliance**

Reduce the waste we create, on a comparable basis, and contribute to the drive for increasingly circular economies through increased re-use and recycling.

**Walgreens Boots Alliance Corporate Social Responsibility Report 2017**

**Walmart**

Create zero waste across our global operations

Achieve more than 90 percent of waste diversion from landfill and incineration in our own operations in Canada, Japan, the U.K., and the U.S., according with Zero Waste International Alliance guidelines by 2025.

Continue working to divert waste in all markets, moving as fast as infrastructure and best practices.
Wegmans Food Markets, Inc.

Wegmans currently diverts more than half of the waste generated by our stores and facilities from local landfills and we are committed to strategies that get us closer to zero waste. We do this through innovative partnerships in our communities with farmers, composters, haulers and recyclers.

Sustainability at Wegmans
