

BioDomus SuperFlat

 AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

Mineral paints, like BioDomus SuperFlat, provide a great alternative to acrylic paints. They are toxin-free, odorless, asthma-free, and naturally mold-resistant. BioDomus SuperFlat is designed to be used on interior walls and ceilings. It is also backed by a 20-year warranty against chipping, peeling, and flaking. Thirteen of Romabio's paints, including this one, are Cradle to Cradle Silver Certified.
