

# Thermacork Standard Insulation

 AVAILABLE AT THE DONGHIA MATERIALS LIBRARY

Thermacork is a 100% natural, renewable, recyclable, and biodegradable rigid-insulation material produced from natural cork. Cork forests benefit the environment, acting as habitats for a diverse range of species as well providing a carbon sink that captures CO2 and greenhouse gasses from the atmosphere.

**CATEGORY**                      **MANUFACTURER**  
**Insulation, Cork**   **Amorim Isolamentos**

**MATERIAL COMPOSITION \***

100% cork (suberin, lignin and cellulose).

*\*As reported by manufacturer*

**AVAILABLE SIZING**

8"x 39" Panel - Available in a variety of thicknesses

**COLORS**

Burnt Cork

**COUNTRY OF MANUFACTURE**

**RAW MATERIALS ORIGIN**

**CERTIFICATIONS & DISCLOSURES**

- ~~Health Product Declaration (HPD)~~
- Declare Label
- ~~Environmental Product Declaration (EPD)~~
- Safety Data Sheet (SDS)
